1926 2.30441 The formal opening of Bryce Canyon, 1925. *Improvement Era*, 29(8) (June): 749-754. [A continuation of a tale of a grandfather telling of the origin of features at Bryce Canyon. See under the section, “Lore of Mythology”, p. 752: Vulcan, in an outrage, “kicked over the huge tub, full of flaming color, in high dugeon; the immense flood of red water thus dashed against the cliffs, stained them the ruddy reds you see, and thus was Bryce Canyon in scenic Southern Utah given its charm of color. The great mass of water, thus suddenly thrown out, cut and wore, tumbled and churned, and chiselled its way to the sea, cutting that great gorge behind Bryce Canyon, which crass men unknowingly dub ‘The Grand Canyon of the Colorado,’ retaining in that appellation nothing of the true origin of the gorge except the Spanish word Colorado, which means red, ruddy." Pattie, James Ohio

NO DATE 2.14494 *1831—Pattie’s personal narrative of a voyage to the Pacific and in Mexico, June 20, 1824-August 30, 1830.* Carlisle, Massachusetts: Applewood Books, [ii], [ii], [25]-379 pp. (“Volume 58”.) [Early 21st century?] [Facsimile reproduction of the Thwaites “Early Western Travels” (1905, ITEM NO. 2.5017) ed., without acknowledgement; including facsimile reproduction of the title-page and Ohio registration page of 1831 ed. (ITEM NO. 2.5015)] [Authorship for this printing is given as Thomas Flint and James Pattie.]

1831 2.5015 *The personal narrative of James O. Pattie, of Kentucky, during an expedition from St. Louis, through the vast regions between that place and the Pacific Ocean, and thence back through the City of Mexico to Vera Cruz, during journeyings of six years : in which he and his father, who accompanied him, suffered unheard of hardships and dangers, had various conflicts with the Indians, and were made captives, in which captivity his father died : together with a description of the country, and the various nations through which they passed.* (Timothy Flint, ed.) Cincinnati, Ohio: Printed and published by John H. Wood, 300 pp. [Grand Canyon attribution (“these horrid mountains”), see p. 97.] [Page 152 misnumbered 125; page 251 misnumbered 151.] [For a biography of Flint see *Timothy Flint : pioneer, missionary, author, editor, 1780-1840 : the story of his life among the pioneers and frontiersmen in the Ohio and Mississippi Valley and in New England and the South*, by John Ervin Kirkpatric (Arthur H. 1847 2.1452 *The hunters of Kentucky : or the trials and toils of trappers and traders, during an expedition to the Rocky Mountains, New Mexico, and California. "O Kentucky, the hunters of Kentucky."* New York: William H. Graham, 100 pp. + advertisements. [Imperfect reprint of Pattie's *Narrative*, authored as Benjamin Bilson (noted only on pp. 3, 90; no credit on title-page). Bilson is a fictitious name created by a literary pirate; it is not a pseudonym employed by the true narrator, James Ohio Pattie, nor by the editor of the true work, Timothy Flint. See Pattie, James Ohio (1831, 1833; ITEM NOS. 2.5015, 2.5016). The putative "narrator" in this ed. notes on the first text page (p. 3), "My father's name was Ben. Bilson. [. . .] I was named after him." On p. 90 he notes his name is "Benjamin Bilson". The passage that purportedly refers to the Grand Canyon ("these horrid mountains") appears on p. 40.] [Howes (1962, p. 58) calls this a "Shameless piracy" in which the names of Pattie and son have been changed to Ben Bilson and son. Wagner and Camp (1982, p. 129, indicate this is "a pirated and slightly abridged reprint of Pattie's *Narrative* . . . published under the pseudonym Benjamin Bilson."]

Photo is not pertinent to this bibliography, but text includes the following remark: "Нястомны майстра і падарожнік Энсэл Адамс абхадзіў, аб'езьдзіў і аблазіў горы і даліны велічнага амэрыканскага захаду, запаведныя тэрыторыі прыроды, што пад ахоавай дзяржавы. Асабліва ўражвае экзатычны Вялікі каньён з чырвонымі фантастычнымі скаламі, гарамі, перасохлымі чырвонымі рэкамі. Праўда, на колер Адамс здымаў мала (а Вялікі каньён, як мне падаецца, трэба здымаць якраз на колер, каб выявіць яго „чырвона-цагельную" экзотыку). Энсэл Адамс быў майстрам клясычнай чорна-белай пэйзажнай фатаграфіі і дасягнуў тут прафэсійнай дасканаласьці і вяршыні." (Ansel Adams, a tireless craftsman and traveler, went around and climbed the mountains and valleys of the majestic American West, in areas of nature protected by the state. The exotic Grand Canyon with fantastic red rocks, mountains, dry red rivers is especially impressive. True, Adams shot little in color (and the Grand Canyon, it seems to me, should be shot in color to reveal its "red-brick" exoticism). Ansel Adams was a master of classic black and white landscape photography in which he achieved the pinnacle of professional excellence.)] [In Belarusian.]

1916 2.21409 Club women's part in conservation. *In:* The Woman's Club This Spring [SECTION]. *Ladies' Home Journal*, 33(3) (March): 37. ["It is the spiritual influence, however, that makes beauty preservation really worth while. Eloquently writes Mrs. [John D.] Sherman: 'I know of the inspiration that comes from a climb to the summit of Long's Peak in the new Rocky Mountain Park. I have stood on the glacier at timber line on the breast of noble, snow-crowned Mount Rainier. From Glacier Point I have seen the alluring beauty of Yosemite Valley. Standing on the rim of Crater Lake I have looked down into the depths of that marvelous blue water and I have felt the wondrous mystery of the Grand Cañon. To me these scenic wonderlands are no longer in the Far West, but with me, wherever I may go—an ever-present inspiration.'"]

Peter and Donna Thomas [firm]

2007 2.24301 *The Grand Canyon.* Santa Cruz, California: Peter and Donna Thomas, [unpaginated]. [Miniature book, 3 × 2¼ inches. Accordion-fold production of ten panels, affixed to boards, with quotations from John Wesley Powell, Aldo Leopold, Nancy and Roger Kayser, and Donna and Peter Thomas. "50 copies for Donna's 50th birthday" (recto of accordion-fold leaf). *WorldCat notes from a bookseller's description, which helps identify this production*: "Brown paper covered boards varnished to look like wood with paper label on front board."; "The paper is 'duplex', or two sided: the sheet is off white, shaded with umber pigment, and the back has a layer of darker paper pulp with petroglyph-like imagery onlayed over the surface. It was printed with a red brown rainbow roll, so the ink is subtly shaded from the top of the page to the bottom, an attempt to visually allude to the colors of the Grand Canyon. Both the front and the back of the accordion page are printed with imagery that depicts the elevations of the Grand Canyon. This image is a duplication from one of the original technical drawing[s] from Powell's book."] [*Additional remarks by E.E.S.*: Front board with paste-down illustration repeating a detail from the accordion-fold illustrations, on which is affixed in turn a paste-down title, "THE GRAND CANYON". The "petroglyph-like imagery" of the rear board comprises a few block letters, largely undecipherable. The graphical reproduction of the recto and verso of the accordion fold are details, greatly enlarged, from the Grand Canyon panoramas [by William Henry Holmes]. Quotation on recto of accordion fold: "The wonders of The Grand Canyon cannot be adequately represented in symbols of speech, [row of graphical symbols here].... John Wesley Powell - Exploring The Colorado: 1875" (ellipsis thus). The verso illustration, labeled with numerals, is identified here as a detail from the "Panorama from Point Sublime—Looking West" a William Henry Holmes illustration (first published in Dutton, 1882) that appears in Powell (1895, *Canyons of the Colorado*, ITEM NO. 2.5137).]

2010 2.26009 *The Southwest.* Santa Cruz, California: Peter and Donna Thomas, [unpaginated]. [Miniature book, 2¼ × 1¾ inches. Accordion-fold production 16 panels; 50 copies. *Description from the Peter and Donna Thomas website*: "This book is a series of watercolor paintings of landscapes that Donna painted in National Parks we passed through in the Southwest during our wandering book artist's gypsy wagon trip in April and May of 2010. The watercolor illustrations have been color copied on Peter's handmade paper. Pictographs, patterns after Navajo rock paintings, have been stenciled on the first and last pages using pigments gathered from the base of ? rock in Sedona, AZ. The panels used to bind the book are covered with Peter's paper made form cotton rag mixed with Yucca fiber gathered in the high desert near the California Arizona border." (Question mark thus.)]

2013 2.24302 *The Grand Canyon.* Santa Cruz, California: Peter and Donna Thomas, [unpaginated]. [Miniature book. Accordion-fold production of 18 panels, with quotations from John Wesley Powell, Aldo Leopold, Nancy and Roger Kayser, and Donna and Peter Thomas, overprinted on elevational depiction from Powell. *WorldCat entry for 2013 production further indicates*: "Contains nine watercolor landscape paintings painted on-site in the Grand Canyon in 2007 by Donna Thomas. Watercolor illustrations are tipped in with decorative handmade corners, which have been hand-stitched to pages. Includes a section of pages cut out resembling a view of the river and the different rock layers of the canyon. Bound with exposed coptic binding on wooden boards. Paper leaves irregular on fore-edge. Issued in beige cloth covered clamshell box (21 cm) with ribbon ties and paper title label on lid. Handmade paper and wooden boards by Peter Thomas. Paper cutting, stitching and clamshell box by Donna Thomas."]

Pike, S.

1908 *2.22738* To the point of the Needles. *Santa Fe Employes' Magazine*, 2(4) (March): 229-230. [Four clerks from the master mechanic's office at Needles climb to the top of Needles Points.]

Pike, Zebulon Montgomery [33]

1810 *2.23050* *An account of expeditions to the sources of the Mississippi, and through the western parts of Louisiana, to the sources of the Arkansaw, Kans, La Platte, and Pierre Jaun, rivers : performed by order of the government of the United States during the years 1805, 1806, and 1807. And a tour through the interior parts of New Spain, when conducted through these provinces, by order of the Captain-General, in the year 1807.* Philadelphia: C. and A. Conrad, and Co.; Petersburgh (New York): Somervell and Conrad; Norfolk (Virginia): Bonsal, Conrad, and Co; and Baltimore (Maryland): Fielding Lucas, Jr. (John Binns, Printer), SEPARATELY PAGINATED SECTIONS (frontispiece, 5, [1], 277 [280], 65 [66], fold-out table, 53, fold-out table, 87, plate, 5 fold-out maps.] [*See*: "A Map of the Internal Provinces of New Spain. The Outlines are from the Sketches of, but corrected and improved by Captain Zebulon M. Pike, who was conducted through that Country, in the Year 1807, by Order of the Commandant General of those Provinces." The map, actually borrowing upon an 1804 copy of a manuscript map by Alexander von Humboldt, includes the Southwest region, where of note is labeled "Puerto del Bacorelli" (*sic*, Puerto de Bucareli) labeled along the Rio Colorado north of the confluence of the Rio Jasquevilla (*i.e.*, Little Colorado River). See pertinent illustrations of Humboldt's and Pike's maps, and others, in the Cartobibliography (about which refer to information in Part 25 of this bibliography).]

≡ CROSS-LISTINGS WHEAT II:299 [map; with illustration facing p. 25]

1811 *2.18981* *Exploratory travels through the western territories of North America: comprising a voyage from St. Louis, on the Mississippi, to the source of that river, and a journey through the interior of Louisiana, and the north-eastern provinces of New Spain. Performed in the years 1805, 1806, 1807, by order of the government of the United States.* [Thomas Rees, ed.] London: printed for Longman, Hurst, Rees, Orme, and Brown, 436 pp. [Regarding notes of the "Rio Colorado of California", see pp. 223-224,

---

[33] The citations of Pike's exploration of Louisiana and adjacent territories are representative, having been after its 1810 original been widely reprinted and published in translation, as well as reprints in more modern annotated editions. He makes infrequent and passing mention of the Colorado River, and the principal interest of these volumes is the map he prepared for publication (which in the Southwest is brazenly copied without credit from a map originally prepared by Alexander von Humboldt), which is referred to and illustrated in THE GRAND CANON Volume 2, *Cartobibliography*.

247-248 (as “Rio Colorado of Calefornia” [*sic*], which the editor notes, “This must evidently be a mistake so far as it relates to the Red-river . . . .”), 333 (as “Great Rio Colorado of California”).]

[“This article was written by Wayne Ranney just one week after the big millennium reunion held at Phantom Ranch from December 30, 1999 to January 1, 2000. It was published previously in a small private newspaper in Prescott, AZ called ‘The Raven Review.’ Only minor corrections or updates have been made from the original article but most of it reads as if you will be reading it in early 2000.”] [Includes group photo of 68 people, with identifications.]
2023	2.31300	Birdseye view. One hundred years ago this summer, in July 1923, Claude H. Birdseye led a 76-day government-sponsored odyssey through the Grand Canyon. Its purpose was to survey the Colorado River and identify potential dam sites. Like most of the early river trips, the Birdseye Expedition was racked with drama, including the boat accident that inspired the name Upset Rapid. *Arizona Highways*, 99(1) (January): 44-49. Roosevelt, Eleanor

1945 2.31608 *My Day* [SYNDICATED NEWSPAPER COLUMN], (April 20). [Written in the aftermath of the death of Franklin D. Roosevelt. "[I] remember something he had said some years ago, whe we first took a look at the Grand Canyon. I thought it the most beautiful, and majestic sight I had ever seen, but my husband said: 'No, it looks dead. I like my green trees at Hyde Park better. They are alive and growing.'" The date of their visit is undetermined; it could have been in 1932 as there is a photograph of FDR with other politicians at the Isabella Greenway Ranch (Quarter Circle Double X Ranch) in Williams, Arizona on September 26, 1932, when he was campaigning for president. (Greenway herself was not there, but would in fact be a U.S. Representative from Arizona during 1932-1937.) Nothing has thus far been found, other than Eleanor's statement, that directly connects the Roosevelts with a Grand Canyon visit.]

1956 2.31609 *My Day* [SYNDICATED NEWSPAPER COLUMN], (July 7). [Begins with thoughts on the recent (June 30) mid-air collision of two airliners over the Grand Canyon.]

Monday afternoon, when we started our trip, there was considerable said about the heat we should experience in passing the Needles, where the railway crosses the Colorado River. The Needles are about as far west as Yuma on the Southern Pacific. Unfortunately we passed it in the night, so I could not get a view of the wonderful river we had been thinking and talking about at the Grand Canyon." (ENTIRE NOTE)]

[Remarks on the "rediscovery" of the Ralph O. Searle collection that had been donated to the library by Michael W. Bennett in 1981. Pertains to the cross-country Army Air Service mission, round trip from Houston, Texas, to San Diego and return, commanded by Searle. Eight men in four De Havilland DH-4 airplanes were "to make observations for a propsed transcontinental aerial mail route". The collection contains "a 1919 photo album from this mission, which includes the earliest known arial [*sic*] photographs of Houston, the Grand Canyon, and other cities and towns along their route. The Grand Canyon crossing, the first ever by airplane, included the first recorded negative-altitude flight. One of the pilots flew 600 feet below the canyon rim, fighitng erratic winds and unpredictable updrafts along the way. This mission was also part of a Hollywood publicity stunt to sell war bonds.”]

[*BIBLIOGRAPHICAL NOTE*: In 2023, Amazon.com promoted a title, *Summary of Brave the Wild River*, which was only a contrived "summary and analysis" of the book, perhaps produced with the use of Artificial Intelligence software. Two items were seen in November 2023; one by "Ben Isaac", with a cover photo of two young women sitting on a wall alongside an undefined riparian stream (certainly neither the Colorado River nor the Grand Canyon), the other, with no cover illustration, by "John L. Lemon". The first title advertises in broken English, "This is not a book by Melissa L. Sevignys nor is it affiliated with them. It is an independent publication that summarizes Sevigny's book in details." The second title, in similarly broken English, advertises, "This is an independent publication by John L. Lemon that summarizes Melissa L. Sevigny's book in details[.] The contents of the outline is never to supplant the original book but rather to help readers figure out a smart read. This outline has been approximately created nailing down the fundamental central issues and realities, and summoned to assist developing comprehension you might intrepret the book." A Kindle electronic tablet version attributes the author as "LIFE Summary" and adds to the unillustrated title image, "(A guide to Melissa L. Sevigny book)"; it also noted (citing a different "author"): "Disclaimer!! This is not a book by Melissa L. Sevigny, nor is it affiliated with them. It is an independent publication by Nora Alonzo that summarizes Melissa L. Sevign's book in detail. It is a summary. The contents of the outline are never to replace the original book but rather to help readers figure out a smart read. This outline has been approximately created nailing down the fundamental central issues, and realities, and summing up subtleties to assist in developing comprehension you might interpret the book." Such productions are not cited in this bibliography, but this note is added here as a matter of contemporary bibliography focusing on one conventionally published title. Note the various attributed authors and similar (though not perfectly identical) disclaimers. This bibliographical note also serves as a cautionary example of what probably are artificially produced texts that may be of interest to human who will research the evolution of AI, a technology that demonstrably can do terrible disservice to works that are more rigorous, human-guided surveys (not to overlook the intents and intellectual rights of the original authors!).]

Lady passenger without any clothes. Why? She had space in car 410 which is the rear car. Had friends in one of the forward cars which was a straight room car. She undressed there and went back to car 410 and to bed. On arrival of train No. 4 at

Williams, car 410 was put on train No. 12 which leaves Williams ahead of No. 4. When arising in the morning, found she was without apparel and was very much excited. Found it necessary to remain in bed until train was switched together again at the Grand Canyon and her apparel recovered. The practice of handling cars in this manner was immediately discontinued. Why? Santa Fe service." (ENTIRE NOTE)]

1922 2.23797 Angel City Division [SECTION]. *The Sleeping Car Conductor* (Order of Sleeping Car Conductors, Kansas City, Missouri), 5(9) (September): 11-13. [See p. 12: "(NOTICE). Wish to correct error in July issue, pages 31 and 32, in regard to cost of living. The rate for meals mentioned in the article is at the El Tovar Hotel, Grand Canyon, only, and we are very much in hopes that the new manager there has by this time had it cut to the old rate. He has told me that he has taken the matter up with the Harvey management at Kansas City. We all wish him luck in his undertaking of same." (ENTIRE NOTE) The manager there noted was Sidney L. Beneditto, who had assumed management of El Tovar after the death of Charles A. Brant (refer to Anonymous, 1922, ITEM NOS. 2.23784, 2.23785; and Henry J. Bohn (1922, ITEM NO. 4.538).] • [The item noted in the July issue does not mention El Tovar or Grand Canyon, and is cited here thus: Shulenberg, F. A., 1922, Angel City Division [SECTION], *The Sleeping Car Conductor*, 5(7) (July): 31-33; see pp. 31-32: "Speaking of the cost of living coming down, how is this one? The rate to Pullman Conductors for dinner has been raised from 75 cents to $1.00, for no known reason, but guess we will have to stand for it. But it is some meal. It is not to be wondered at that the boys all like the good old SANTA FE, for you know there is an old saying, feed well and we'll all be happy. The Harvey meals can not be equalled anywhere in the United States, and the way they treat the railway employees—well it's cheap advertising, that's all." (ENTIRE NOTE)]

The Grand Canyon may be likened to a deep trough—the river runs through the bottom of the trough in a narrow gorge, through the granite, about 1,000 ft. deep and from 300 to 400 ft. wide. [¶] In using this aerial ferry, the tourist will go down Bright Angel trail from the hotel, eight miles on horse back to the top of the granite wall, take the cable across about 400 ft. and then ascend the north wall about twelve miles. Of course a cable, stretched 18 miles from rim to rim would be impossible and absurd." [Farqhuhar (1953, p. 15) notes, "The plates in some copies do not conform to the lists." The comment may pertain to both editions (1853, 1854), but Plate 14 was not published, thus adding confusion to some catalogues.] [Grand Canyon itself is mentioned twice in Sitgreaves' journal (pp. 8, 9), as "the great cañon". With respect to the Colorado River, the accompanying map (see Sitgreaves, 1853, CARTOBIBLIOGRAPHY ITEM NO. 25.916; Cartobibliography is THE GRAND CANON Volume 2) depicts the lower Colorado between Ogden's Landing and the coincidental confluence of both the "Rio Virgen" (on the west) and "Yampay Creek" (on the right); the Colorado arrives from off of the map to the north [*sic*] along which reach it is labeled "Big Cañon" on one state of the map and "Great Cañon" on another state. It has not been determined which state appeared first, although they appear to be contemporaneous. That Grand Canyon portion of the two states of the map were first noticed and illustrated in Spamer (2022, ITEM NO. 2.30979).]

2013	2.18476	Once again, "Who named the Grand Canyon?"—and other obscure Grand Canyon "firsts". *The Ol' Pioneer* (Grand Canyon Historical Society), 24(2) (Spring): 4-16. • [***Errata et emenda* (PUBLISHED HERE).** ***ERRATA*:** *page 6, right column*, for "This must be . . ." read "This must really be . . .". [¶] The "Chop" hill locale stated to be the place of the Richard Kern illustration of 1851 (published by Sitgreaves, 1853) seems not to be correct. Based on field observations and comparisons by R. D. Quartaroli *et al.*, from "Chop" hill and elsewhere in the San Francisco Peaks during Fall 2013, the scene depicted by Kern seems to be higher in elevation and on the west side of the San Francisco Peaks. Further investigations still are to be made; the onset of winter weather precluded continued work in 2013. [¶] Tom Jonas and Andrew Wallace have likewise reinvestigated the vantage point of Kern's drawing. The locale

seems to be on the western side of the San Francisco Peaks, as the twin hills in Kern's drawing are the White Horse Hills. The vantage point, at about 9100 ft elevation, seems now to have been obscured by trees, but Jonas and Wallace believe that the position has been identified within a few hundred feet. (*fide* Tom Jonas in correspondence, January 2015). [*NOTE*: This revised information also appeared in Spamer (2022, ITEM NO. 2.30979).] • ***EMENDA*:** Figure legends (*omitted in press*): *Figure 1.* "Grand Canon. Mountains of Chiricahui, opposite Head Springs Valle de Sauz Cienega." *(Gray, 1856, plate facing p. 48.)* This is the first illustration of any place labeled as "Grand Canyon." It is in the Chiricahua Mountains of southern Arizona. *Figure 2.* "View Looking West, from Camp 16." *(Sitgreaves, 1853, Plate 13.)* The detail (*top*) is enlarged from the right half of the horizon line, which depicts the North Rim of the Grand Canyon about 70 miles distant. The published legend, "View Looking West," is not precise; the view is more panoramic and northwesterly. *Figure 3.* Excerpt from Samuel Washington Woodhouse's diary, October 11, 1851, where he mentions seeing the Grand Canyon from the San Francisco Peaks. His writing lacks punctuation and some capitalization: "*from here was to be seen the course of the great Colorado and the tops of the mountain and rocky bluffs which form the great canon this must really be an awful yet grand spectacl* [sic] *I should suppose that the nearest point was about 70 miles nothing like water was to be seen*". [35] Regarding the numerous oral history interviews conducted by Lew Steiger and published in *Boatman’s Quarterly Review*, the authorships noted in this bibliography reflect the interviewee’s name, Steiger’s, and others as appropriate. In the earlier interviews, items carried the Steiger by-line, sometimes with other interviewers. In later interviews, no by-line appears. In this bibliography, the citations of interviews have been standardized, listing the interviewee’s name first, followed by the interviewers’ names.

At certain times of the year snowmelt in Utah caused the "Little Virgin River" (Virgin River) to produce deposits that "were of such a character that made it almost impossible to operate the steamship. [. . .] The mixture of these waters resulted in a condition that had the effect of loosening the scale on the boilers formed by the other water and was, in effect, a boiler compound which would result in cleaning them out."]

Symons includes (p. 182) remarks from his experience "some twenty odd years ago when I was acting in the capacity of engineer on a river steamer on the Colorado River". His remarks were in response to the lecturer's note of a problem of hard water that caused his locomotive boiler to "foam or prime", and Symons' reminiscence of problematic water quality of high flows of "reddish" water flowing into the Colorado from the "Little Virgin river" (Virgin River) producing the same sort of problem by further hardening the main stream's water.]

[Address to the House, at the request of the Secretary of the Interior, as part of debate and discussion on "National Parks and Reservations" (p. 1794 *ff*), which was leading toward the establishment of the National Park Service. Taft's remarks note: "Those of you who have first been in the Yellowstone Park and admired its beauties and thought of the ability of the Army engineers to construct such roads as are there, and then have gone on to the Yosemite and have seen its beauties and have found the roads not quite so good, and then have gone to Grand Canyon and have found a place where you could bury the Yellowstone Canyon and the Yoesmite and never know that they were there, and found no roads at all except a railroad, that was built at a great expense and probably at great loss, to the side of the canyon, and only a trail, called the 'Bright Angel Trail,' down into the canyon—down which they would not let me go, because they were afraid the mules could not carry me—you will understand that something needs to be done in respect to those parks if we are all to enjoy them."]

[A letter in response to a previous article in this serial, on irrigation by "Professor [Edgar L.] Larkin". The letter concludes with unrelated remarks (p. 36): "You must ask Professor Larkin for a description of the Grand Canyon of Arizona. That is a cut in the face of the level mesa that takes one's breath away, it is the most glorious thing on earth. You put Niagara into it and it would only make a shining patch of misty water against one little bit of one of those awful, wonderful walls. [. . .] [¶] But, dear heart, the Canyon is the closest thing to the overpowering that exists. [¶] I was talking with a gentleman who was with the English when they entered Lhassa. He says nothing in the Himalayas can compare with this gorge, this Arizona Canyon, and it is true, I fancy, for when this man first looked down into this wonderful gorge he gasped with sheer pleasure."]

[Remarks during a “Five-Minute Topics” session on, “Is Twisting Ever Jutifiable?” Includes comment, “I arose in the early morning and left my little hotel, the ‘Hotel Telford,’ [*sic*] to see the sun rise in the most horrible, strangest, wildest place in the whole world, the Grand Canyon of Arizona. I went to sleep on the bench and had a dream, and I saw in the distance the clouds trying to obscure the beautiful sunlight, and I looked down in that awful chasm below, and I saw the strong colorings, the red and yellow, and overhead the beautiful velvet blue, and I saw four words plainly printed on the horizon in [the] distance two hundred and ten miles off, ‘Press towards the mark.’ We know what our duty is on twisting.” (Pertains to the unfavorable act of life insurance twisting, when an agent misrepresents facts in order to replace a client’s existing policy with that of another underwriter.)
